# Recycling 101

If you're wondering what is recycling or how to recycle properly, check below to learn everything from recycling basics to expert tips.

## Three Basic Rules

Knowing these rules and putting them into practice will help you recycle more efficiently and ensure more materials find a second life.

### RULE 1

**Recycle bottles, cans, paper and cardboard**

### RULE 2

**Keep food and liquid out of your recycling**

### RULE 3

**No loose plastic bags and no bagged recyclables**

## Recycling Guide

### What Can Be Recycled

Always check local programs to confirm what's recyclable in your area. For a quick overview of the basics, download [What's Recyclable](#).

### Accepted in Your Bin\*

These items can go in your recycling bin, as long as they're clean and dry.

Plastic Bottles & Containers

Food & Beverage Cans

Paper

Clean and dry containers, then put the cap back on before tossing in the bin.

Feedback

### Not Accepted in Your Bin

Try to reduce and reuse these items instead of putting them in the trash.

No Bagged Recyclables

No Plastic Bags

No Plastic Wrap & Film

If you collect your recyclables in a bag, empty them directly into your cart and reuse the bag!

Do not bag recyclables as materials inside may not get recycled. Reuse plastic bags, or learn where you can recycle them at [plasticfilmrecycling.org](http://plasticfilmrecycling.org).

### Other Materials

Typically not accepted for curbside pickup. Check local programs for disposal options.
